# Route OO Will Be Reduced to One Lane

SEPTEMBER 16TH 2014 BY DEE LOFLIN

Route OO Will Be Reduced to One Lane

**Stoddard County, Missouri** - Route OO in Stoddard County will be reduced to one lane as Missouri Department of Transportation crews perform pavement repairs.

This section of roadway is located from Route 25 to County Road 337.

Weather permitting, work will take place Tuesday, Sept. 16 from 7 a.m. to 4 p.m. daily.

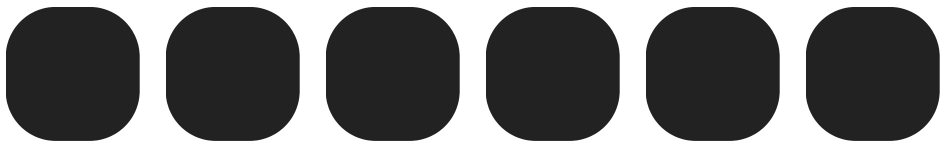

The work zone will be marked with signs. Motorists are urged to use extreme caution while traveling near the area.

For additional information, contact MoDOT's Customer Service Center toll-free at 1-888-ASK-MODOT (1-888-275-6636) or visit [www.modot.org/southeast](http://www.modot.org/southeast).

## New Wildlife Management Biologist in Southeast Missouri

SEPTEMBER 12TH 2014 BY DEE LOFLIN

### New Wildlife Management Biologist in Southeast Missouri

**Cape Girardeau, Missouri** - The Missouri Department of Conservation (MDC) welcomes a new wildlife management biologist, Ryan Dirnberger, to the River Hills and Crowley's Ridge districts. Dirnberger is based out of the MDC's Perryville Forestry Office, although his responsibilities include managing conservation areas in Cape Girardeau, Perry, Scott, Ste. Genevieve, and Stoddard counties.

Matt Bowyer, MDC wildlife regional supervisor, said Dirnberger will also be an asset to the community as a resource to answer wildlife and habitat questions.

Dirnberger earned his B.S. Degree in Wildlife Conservation Biology from Southeast Missouri State University -. After obtaining his degree, he worked part time for the MDC's Fisheries and Resource Science Divisions in the southeast region before being hired as a resource science assistant in Chillicothe.

In Chillicothe, Dirnberger worked as a crew leader for large river sampling on the Missouri River, supervised staff, and assisted with public events and educational programs. During this time, Dirnberger also produced a report on the growth of sauger that was later published in the American Journal of Fisheries Management.

In 2010, Dirnberger transferred to the MDC’s Wildlife Division and gained experience in the management of wildlife habitats as a resource assistant at Duck Creek Conservation Area. In the last four years, he has worked at Duck Creek carrying out numerous management practices on the wetland and upland habitats.

Over the years, Dirnberger has worked additional assignments doing urban deer surveys, waterfowl banding, dove banding, elk trapping, quail surveys, and swamp rabbit surveys. He has worked hard to obtain additional training in areas that add to his skill set as a manager, including certification as a Missouri Prescribed Fire Burn Boss and burn planner. He has federal certifications as a Fire Fighter Type 2 and is chainsaw certified as a Faller Type A. During his time at Duck Creek, Dirnberger became known for always being one of the first to volunteer to help other districts and divisions in their time of need. He has repeatedly taken advantage of opportunities to cross train with other divisions including working with professional staff in Fisheries, Forestry, Resource Science and Private Lands Divisions.

“This desire to grow professionally as a biologist combined with a strong work ethic, great teamwork, and a broad background of on the ground management and monitoring practices will benefit Dirnberger greatly as a wildlife management biologist,” Bowyer said.

“I am really excited to improve habitat on our conservation areas and work with landowners in the River Hills and Crowley’s Ridge districts,” Dirnberger said.

Dirnberger may be reached at the Perryville Forestry Office at 573-547-4537. He currently resides in Chaffee with his fiancée, Lora Brewer.

## Strafford Man Breaks State Record for Quillback

SEPTEMBER 11TH 2014 BY DEE LOFLIN

### Strafford Man Breaks State Record for Quillback

**Jefferson City, Missouri** - The Missouri Department of Conservation (MDC) congratulates David Weaver of Strafford on his new state-record quillback caught from Lake Taneycomo by bowfishing on Aug. 23. The 7-pound-10-ounce fish qualifies for a state record in the alternative method category.

The previous record of 6 pounds, 10 ounces was set this spring at Bull Shoals. The new state record is larger than the current world record by more than a pound, but does not qualify because world records only recognize fish taken by pole and line.

For more info on the quillback, visit [nas.er.usgs.gov/queries/FactSheet.aspx?SpeciesID=342](http://nas.er.usgs.gov/queries/FactSheet.aspx?SpeciesID=342).

For more on state-record fish, visit the MDC website at [mdc.mo.gov/fishing/state-record-fish](http://mdc.mo.gov/fishing/state-record-fish).
