Athletes Know What It Takes to be Successful

APRIL 25TH 2016 BY DEE LOFLIN

Athletes Know What It Takes to be Successful

Dexter, Missouri - Dexter athletes know what it takes to be successful. It's not just showing up to practice and playing in the games. It's about working hard in the off season, especially in the weight room. This year's weightlifting classes have been working hard and the results prove it.

Dexter High School weightlifting instructor Justin Peden has been impressed with the student's results after his first year as instructor.

"I feel like the athletes here have committed themselves to getting stronger, which was the major focus of this year," Peden also added that many athletes have stood out individually for their commitment to the weight room.

"There are so many kids who worked hard this year but a couple guys really stood out. Hunter Lawrence is squatting 500 pounds and dead lifting 455 pounds as a freshman, which is unheard of. Junior Jonathon Smith and freshman Garrison Collier have added 100 pounds to their squat max, which is also impressive," Peden said. "We currently have thirty athletes benching 200 pounds or more, 42 squatting 300 pounds or more and 21 hang cleaning 200 pounds or more, which shows how hard these guys have been working".

Of course the weight room is not only for the boys. Female athletes have made big strides as well. Freshman Brooklyn Howard has increased her squat max by 48 percent, freshman Makenna Wilson has increased her bench max by 64.29 percent and freshman Anna Bishop has increased her hang clean max by 30.77 percent. Peden stated "In a lot of ways the girls are more competitive then the guys. They realized that it is ok to be strong and have really taken to getting in the weight room."

Peden has also instituted the "Pound Club" this year.

"The pound club is created by adding the max lifts for bench press, squat and hang clean. Some schools also include dead lift; however we are easing into that so I didn't count it," continued Peden.

The 500 pound club currently has fifty five members while the 750 pound club has 14 members.

"At the beginning of the year we might have had twenty kids in the 500 and 4 or 5 in the 750, so the gains are there," stated Peden. "I feel like a real foundation of hard work and strength has been built this year. The future of Dexter weightlifting is definitely bright."
