Missouri Dove Hunting Season Opens September 1st

AUGUST 26TH 2016 BY DEE LOFLIN

Missouri Dove Hunting Season Opens September 1st

MDC reminds dove hunters of 20 more hunting days this year and of numerous conservation areas for hunting.

Jefferson City, Missouri - With dove hunting season in Missouri opening Sept. 1, the Missouri Department of Conservation (MDC) reminds dove hunters of its more than 180 conservation areas around the state that allow dove hunting, including nearly 100 planted in crop fields that attract the popular game birds. Crops include sunflower, corn, millet, wheat, and buckwheat.

MDC is offering hunters 20 more days of dove hunting this fall. Mourning doves, Eurasian collared doves, and white-winged doves may be taken from Sept. 1 through Nov. 29 from one half hour before sunrise to sunset with a combined daily limit of 15 and a combined possession limit of 45 for all three species.

Get more information on dove hunting – including permit requirements, places to hunt, recipes, and more -- online at huntfish.mdc.mo.gov/hunting-trapping/species/dove. Information on dove hunting is also available through MDC's "2016 Migratory Bird Hunting Digest" available starting in mid-August where hunting permits are sold.

MO Conservation Commission Approves Hog-Hunting Ban

AUGUST 24TH 2016 BY DEE LOFLIN

[MO Conservation Commission Approves Hog-Hunting Ban](#)

Hunting feral hogs will be prohibited on Conservation Department lands effective Sept. 30.

Jefferson City, Missouri - At its meeting on June 24, the Missouri Conservation Commission approved changes to the Wildlife Code of Missouri that would prohibit the hunting of feral hogs on conservation areas and other lands owned, leased, or managed by the Missouri Department of Conservation (MDC). The new regulation prohibiting hog hunting on MDC areas does not apply to private property.

The Commission's decision followed consideration of feedback received during a public comment period on the topic that ended in May. The effective date of the regulation change will be Sept. 30. Potential penalties for illegal hog hunting could include fines and the loss of hunting privileges.

MDC discourages feral hog hunting in Missouri. Research from other states shows that hog hunting increases feral hog numbers and locations because it provides incentives for illegal releases of hogs for future hunting. Releasing hogs to non-enclosed areas or to the wild is illegal in Missouri. MDC encourages the public to report these types of illegal activities to local conservation agents.

Instead of hunting hogs to help reduce their numbers, MDC encourages hunters and others to report feral-hog sightings to their local conservation agents or MDC offices. Staff can then confirm local numbers and locations, and determine how best to capture and eliminate the entire group of feral hogs.

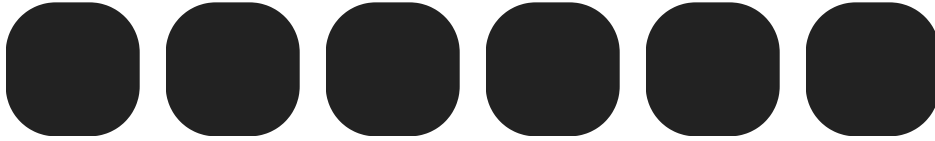

MDC owns or manages about 1,000 conservation areas around the state with about 30 known to have feral hogs, mostly in southern Missouri. According to MDC Wildlife Division Chief Jason Sumners, hog hunting on conservation areas interferes with efforts by MDC staff to trap and eliminate entire groups of feral hogs, called sounders.

"The regulation change prohibiting hog hunting on conservation lands is a direct result of some misguided individuals disrupting trapping efforts by MDC staff," Sumners explained. "MDC staff set large, corral-type traps on areas where there are known feral hogs. They then bait the area with corn for several days or weeks to attract the targeted group of hogs, get them used to the surroundings, and get them concentrated in the trap before triggering it. This work takes weeks, with the goal being to trap the entire group of hogs. After weeks of work to catch the sounder of hogs, we then get an individual who finds out about the site, shows up at some point, and shoots a hog or two. The rest of the group then scatters and moves to a new location. As a result, weeks of work have been wasted and new areas now have feral hogs."

Feral hogs are an invasive, nuisance species in Missouri and are not wildlife. They cause significant damage to wildlife habitats, compete with native wildlife such as deer and turkey for food, prey upon native wildlife such as turkey and quail, destroy natural areas along with agricultural lands, pollute ponds and streams, and spread diseases to domestic livestock and people. For more information on feral hogs, visit the MDC website at mdc.mo.gov/feralhog

MDC Names Birch Tree Man Logger of the Year

AUGUST 19TH 2016 BY DEE LOFLIN

[MDC Names Birch Tree Man Logger of the Year](#)

Birch Tree, Missouri - The Missouri Department of Conservation (MDC) congratulates Tom Martin of Birch Tree on being named Missouri's State Logger of the Year for 2016! Martin was also named the regional logger of the year for the Ozark Region.

He has been a contract logger for Smith Flooring for almost a quarter century and has worked on private, state, and federal-land timber sales across the Ozarks. Martin works by himself, cutting, skidding and hauling timber.

Martin was nominated by MDC Resource Forester Gary Gognat, who says his work represents the top tier of loggers in Missouri. “There’s a trait common to all past logger award winners, and Martin has it,” said Gognat. “It’s that inherent desire to do the very best job in the woods that he can, each and every day.”

MDC Forest Products Program Supervisor Mike Morris added, “Tom represents exactly what we want from Missouri’s professional loggers. He recognizes the value of proper training, safety, and conservation of resources.”

In recognition of his award, Martin received a framed certificate from MDC and a STIHL chainsaw donated by long-time partner Crader Distributing of Marble Hill at the Missouri Forest Products Association summer meeting.

The Missouri Department of Conservation partners with Crader Distributing to give annual awards to loggers who have demonstrated outstanding performance and good working relationships with landowners and foresters. The loggers are recognized for minimizing damage to trees and natural resources and using best management techniques that preserve Missouri's forested lands for generations to come.

Duck Banding and Electrofishing Demonstration at Otter Slough

JULY 22ND 2016 BY DEE LOFLIN

Duck Banding and Electrofishing Demonstration at Otter Slough

Dexter, Missouri - The Missouri Department of Conservation and the Dexter Greenhead Chapter of Ducks Unlimited will host their Annual Duck Banding Event at Otter Slough Conservation Area on Saturday, July 30th at 7:00 a.m.

The event will begin with Missouri Department of Conservation staff demonstrating electrofishing equipment on Cypress Lake.

Fisheries Biologist Mike Reed will run a electrofishing boat along the shoreline and you will have a front row seat to the fish population of Cypress Lake. Mike will also show how biologists tag fish for research projects. While everyone is watching the show, Ducks Unlimited volunteers and MDC staff will be operating various capture equipment around Otter Slough hoping to catch mourning doves and ducks.

Following the fish show, will be an opportunity for all youth to assist wildlife biologists band and release any birds captured on the area that day. For a grand finale, we will travel out to a rocket net site on Otter Slough and see first hand how the nets are deployed to capture wildlife. Ducks Unlimited volunteers will also be on hand to demonstrate retriever handling techniques and hand out some free stuff for the kids.

The event will begin at 7:00 a.m. sharp in the large parking lot next to Cypress Lake and the equipment yard at Otter Slough Conservation Area. Most of the activities will occur in shaded areas and will conclude at approximately 10:00 a.m.

No registration is required and the event is free to all ages.

Want to be a Conservation Agent in Missouri?

Want to be a Conservation Agent in Missouri?

Missouri Dept. of Conservation is accepting applications Until August 29th for its next class of conservation agents!

The Missouri Department of Conservation (MDC) is accepting online applications through Aug. 29 for its next class of conservation agent trainees. Selected candidates will undergo 26 weeks of intense training in all facets of law enforcement and resource management.

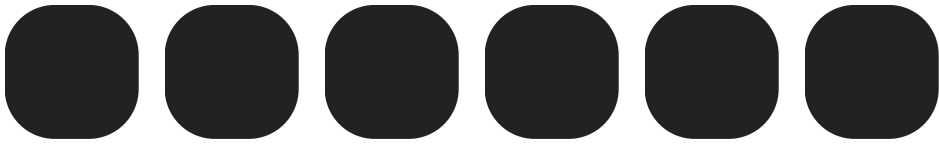

Those who make the grade will receive county assignments and become the face of conservation in their assigned communities – enforcing the Wildlife Code of Missouri and helping the public with issues such as nuisance wildlife and land management.

To qualify, applicants must have a bachelor's degree in a field related to the natural sciences or criminal justice.

To apply -- and for more information including salary range, duties and responsibilities, degree requirements, qualifications, and special-ability requirements -- visit the MDC website at mdc.mo.gov/about-us/careers.

For more information, contact MDC Protection Programs Specialist Travis McLain at 573-522-4115, ext. 3261 or Travis.McLain@mdc.mo.gov, or MDC Protection Programs Supervisor Cheryl Fey at 573-751-4115, ext. 3819, or Cheryl.Fey@mdc.mo.gov.
