Cape Nature Center Will Give Tips on Deer Processing

Cape Girardeau, Missouri - Once a hunter has bagged a deer, the work is only half over. How to field dress it, skin it, process the meat and store it for future tasty meals are skills hunters need to know. The Cape Girardeau Conservation Nature Center's Field to Freezer program, Saturday, Oct. 8, from 10 a.m. to noon will help hunters learn how to process their own deer.

Attendees will learn how to field dress and properly care for their harvested deer and how to process the venison for freezer storage at this free program. Regulations and supplies needed for processing deer meat will also be discussed.

Pre-registration is required because space is limited. This program is for ages 16 and up. To register, call the nature center at (573)290-5218.

Information about deer and deer hunting in Missouri can be found at mdc.mo.gov/hunting. Information about this and other nature programs at the Cape Girardeau Conservation Nature Center can be found at mdc.mo.gov/CapeNatureCenter.
