Athletes Making Strides in Newly Remodeled Weight Room

AUGUST 10TH 2017 BY DEE LOFLIN

Athletes Making Strides in Newly Remodeled Weight Room

Dexter, Missouri - Athletes are taking advantage of the new and upgraded weight room at Dexter High School. Both middle school and high school athletes have been working hard in their newly remodeled weight room. With more weight lifting equipment and better design, more athletes can get their work-out done in a timely fashion and ready to hit the field or court.

Through local donations from the community the Dexter Schools were able to purchase new equipment and upgrade the entire weight room.

"There was a need for a facility upgrade," commented Dexter's head football coach Kevin Goltra. "A few business men offered to help and a complete overhaul was made. I think this is the best high school weight room in southeast Missouri."

The weight room is designed so that any athlete from middle school to high school can utilize the equipment.

"Every sport, every athlete have the opportunity to use this facility," continued Goltra. "We have rehab equipment, kettle bells, and nine new racks and platforms. We can also do two or more major lifts at a time and within a 35-40 minute window which will give our football athletes more time on the field during practices."

Earlier in 2017 prior to the renovation, the Goltra's weight lifting athletes participated in weight lifting competition in Scott City and earned a first place finish. It is his hope that they continue to compete and perhaps host a competition in the future.

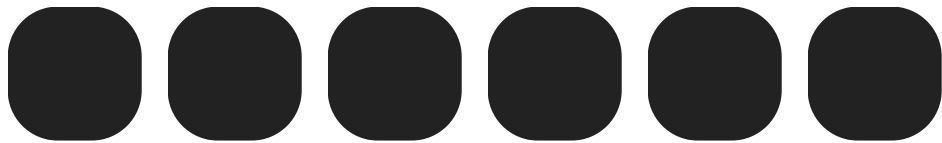

With the new renovations, athletes can increase their productivity 30 - 40% during weight lifting classes. They are able to put 3 students to each station now.

"The weight room is absolutely gorgeous. It is the vision of many people and it took many to make it happen," commented Dexter High School Activities/Athletic Director Aaron Pixley. "The room has new paint, flooring, ceiling, and equipment. Something that our kids deserve. It will be a valuable tool for all our athletes in every sport. Every athlete (male and female) is highly encouraged to make their workouts daily and now they have something to be proud of."

Ozark Angler Hooks State-Record Quillback

AUGUST 03RD 2017 BY DEE LOFLIN

Ozark Angler Hooks State-Record Quillback

MDC congratulates Timothy Keene on breaking the pole-and-line state record by catching a 5-pound, 13-ounce quillback on Bull Shoals Lake.

Ozark, Missouri - The Missouri Department of Conservation (MDC) reports that Timothy Keene of Ozark became the most recent record-breaking angler in Missouri when he hooked a quillback on Bull Shoals Lake in Taney County using a rod and reel.

The new “pole and line” record quillback caught by Keene on June 26 weighed 5 pounds, 13 ounces. It broke the previous state-record of 2 pounds, 12 ounces. Keene and a fishing buddy were using red and purple-colored spoons trying to catch walleye when he hooked the state-record quillback.

“The quillback put up a pretty good fight. I fought it for at least four minutes until I got it in the boat,” Keene said.

Keene said once he got it in the boat he didn’t really know what type of fish it was, but his fishing buddy did.

“I’m pretty new at fishing so I don’t know all the fish species, but my fishing buddy knew we had a really nice size quillback,” he said. “After some quick research, we were confident we had a new state-record fish.”

Keene says he still can’t believe he has a Missouri state record, which was confirmed by MDC staff using a certified scale at Shepherd of the Hills Hatchery.

“I can’t believe it! This is an event I would have never dreamed of,” he said.

The quillback fish is a part of the sucker family. It is deeper-bodied than most suckers, leading to a carp-like appearance. It can be distinguished from carp by the lack of barbels around the mouth.

Keene is unsure if he is going to mount the fish or not.

Missouri state-record fish are recognized in two categories: pole-and-line and alternative methods. Alternative methods include: throwlines, trotlines, limb lines, bank lines, jug lines, spearfishing, snagging, snaring, gigging, grabbing, archery, and atlatl.
