Dacus Named Patient Care Manager for Progressive Care

SEPTEMBER 14TH 2017 BY DEE LOFLIN

Dacus Named Patient Care Manager for Progressive Care

Saint Francis Healthcare System announces the appointment of Victoria Dacus, RN, BSN, to her new role as patient care manager for Progressive Care.

In this role, Dacus is responsible and accountable for the delivery of care, development of policies and procedures, standards of care and protocols in accordance with the policies, procedures, philosophy and objectives of Saint Francis Medical Center.

Dacus has been with Saint Francis for 11 years in Progressive Care. When she first started at the Medical Center she was a CNA and later became the lead charge nurse.

She earned both her RN and BSN from Southeast Missouri State University.

Saint Francis Medical Center is a 308-bed facility serving more than 713,000 people throughout Missouri, Illinois, Kentucky, Tennessee and Arkansas. Guided by its mission to provide a ministry of healing and wellness inspired by its Christian philosophy and values, the Medical Center has become a progressive, innovative regional tertiary care referral center. Saint Francis' major service lines, which have received national recognition, include the Neurosciences Institute; Orthopedic Institute; Family BirthPlace, featuring the region's first Level III Neonatal Intensive Care Unit; Heart Hospital; Emergency and Level III Trauma Center; Cancer Institute; and Fitness Plus.

Dexter PD Will Crack Down on Child Restraint Violations

[Dexter PD Will Crack Down on Child Restraint Violations](#)

Missouri Law Requires Children under Eight to Be Buckled Up

Dexter, Missouri - Missouri law requires all children under the age of eight to be in an appropriate child safety seat or booster seat unless they are 80 lbs or 4'9" tall.

Dexter Police Department announced today they are joining with law enforcement September 17-23 for an aggressive Child Passenger Safety Week Law Enforcement Campaign to crack down on Missouri's child safety seat law violators and to reduce highway fatalities and injuries to children.

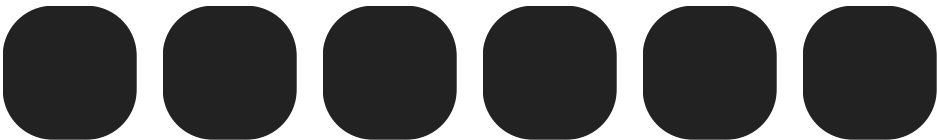

Car crashes are the number one killer of kids. Booster seat use reduces the risk of serious injury by 45 percent for children aged 4-8 years when compared with seat belt use alone. Is your child safe?

Chief Stone said regular child safety seat and safety belt use is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.
