May Athletes of the Month Named

JUNE 16TH 2018 BY DEE LOFLIN

May Athletes of the Month Named

Poplar Bluff, Missouri - The Mules Booster Club has named Krisman Eakin and Ben Stewart of Poplar Bluff High School the May Athletes of the Month, presented by Academy Sports + Outdoors.

Ben, an incoming senior tennis player, had a 2018 singles record of 22-4 and a career record of 46-5. He placed first in singles at the Poplar Bluff and Farmington Invitational respectively, finished second in singles at the SEMO Conference, and placed first in singles at individual districts. In the classroom, he maintains a 3.8 grade point average.

“Ben is a great student, person and athlete,” said Charley Harper, tennis coach. “Having coached him for three years, I have seen how he sets goals and pursues them with a passion. He was a good tennis player as a freshman and has worked hard to get better every year.”

In track and field, Krisman Eakin of the Class of 2018 broke the 400-meter record at sectionals in Kirkwood with 58.55 seconds. She qualified for All Conference and All District in the 100, 200, 400 and 4x4; and All State in the 100, 200 and 400 meter.

“Krisman is a very dedicated, skilled and knowledgeable track athlete,” said Beth Lewis, track coach. “Her hard work and dedication shows through every time she steps foot onto the track. She has been a huge asset to the girls’ Poplar Bluff Track team.”

Public Input Sought for Otter Slough Conservation Area

JUNE 05TH 2018 BY DEE LOFLIN

Public Input Sought for Otter Slough Conservation Area

Public input sought for Otter Slough Conservation Area

The Otter Slough CA management plan is open for public review until June 30.

The Missouri Department of Conservation (MDC) is in the multi-year process of updating Conservation Area Management Plans, and is seeking public input on how the Otter Slough Conservation Area (CA) is important to Missourians. The Otter Slough CA management plan is open for public review until June 30.

MDC invites comments from recreational users, neighboring landowners, conservation groups, elected officials, government agencies, and other interested persons or groups. To make a comment on this area plan, go online to www.mdc.mo.gov/areaplans.

MDC manages nearly 1,000 conservation areas covering almost one million public acres throughout the state for the purpose of restoring and conserving fish, forest and wildlife resources, and for providing appropriate public use, research and demonstration areas.

Conservation Area Management Plans document strategies for natural resource management and public use on specific conservation areas. Area plans also help communicate an area's purpose and management direction to staff and interested citizens.

“It’s important that citizens have a chance to provide their input to their conservation areas,” said Matt Bowyer, MDC’s Southeast Region Wildlife Supervisor. “We provide a service by managing these areas and we strive to develop quality habitat to promote wildlife health as well as outdoor opportunities for Missourians.”

Conservation Area Management Plans do not address regulations on hunting, fishing and other area uses, which are set by the Conservation Commission and enforced under the

Wildlife Code of Missouri.

Area plans are currently posted on the MDC website and available at MDC offices for public comment for a limited time.
