Multimedia Class Produces Safety Video for Gates

APRIL 24TH 2019 BY DEE LOFLIN

Multimedia Class Produces Safety Video for Gates

The multimedia class at Poplar Bluff High School is producing an official safety video for Gates Corporation in Industrial Park.

The audiovisual students, under the instruction of business teacher Heather Pullam, conducted interviews with company officials earlier this month, and then captured B-roll footage at the manufacturing plant.

The end product will be designed to provide an overview of the company, which produces 70,000 rubber and plastic parts per day for hoses and tubing. The video will be shown to visitors so they can learn proper safety protocol before entering the factory.

The connection was made with industry officials during a tour of Gates in February through the Missouri Career Pathways state grant initiative secured by Director Charles Kinsey of the Technical Career Center to connect schools with real world applications. PBHS Principal Mike Owen was able to attend the tour and volunteered the service to Gates in order to provide students with a project to help build their resumes.

The multimedia program moved from the English department to practical arts this school year and received a major equipment upgrade with federal enhancement funding available for career technical education programming. The number of students signed up for the class next school year has quadrupled, Pullam noted.

Playground Equipment Added Through Fundraisers

APRIL 24TH 2019 BY DEE LOFLIN

Playground Equipment Added Through Fundraisers

The Poplar Bluff Kindergarten Center was able to significantly expand its playground last week with equipment designed for gross motor skill development through fundraising efforts.

Three sets of monkey bars have been added to the outdoor play space east of the facility, with height gauged by students of varying sizes, and a balance beam was added along with other pods. Longtime supporter of the district, Greg West, completed the installation of the equipment at a heavily-discounted price, according to education officials.

“It’s more purposeful play, and we’re super excited,” Principal Jessica Thurston said. “Our pre-enrollment numbers are up for next year, and we’ve outgrown our playground.”

Money was generated over the course of a couple years through events including the annual Fall Festival and Stonie Sausage fundraiser. T-shirts, yearbooks and classroom parties are also financed through the fundraisers, as parents of kindergartners are asked to pay for very little throughout the year, according to Thurston. She said the Kindergarten Center is “blessed” to be a part of such a supportive school community.

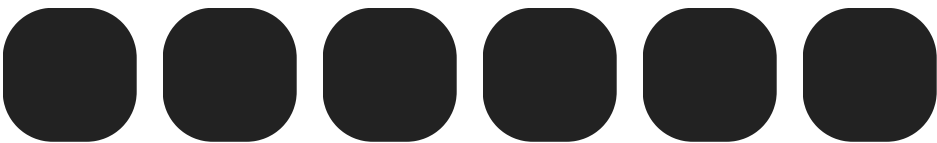

Pictured: Kindergartners test out the newly installed playground equipment on Tuesday, April 16, during physical education class.
