Earthquake Shakes Bloomfield Tuesday Evening

SEPTEMBER 07TH 2021 BY DEE LOFLIN

Earthquake Shakes Bloomfield Tuesday Evening

A magnitude 4.3 earthquake near Bloomfield, Stoddard County, Missouri, USA, was reported at 8:52 p.m. CST by the United States Geological Survey, considered the key international and national agency that monitors seismic activity in the US. The earthquake occurred at a very shallow depth of 0.9 miles beneath the epicenter in the evening on Tuesday, September 7th, 2021.

The exact magnitude, epicenter, and depth of the quake might be revised within the next few hours or minutes as seismologists review data and refine their calculations, or as other agencies issue their report.

A second report was later issued by the European-Mediterranean Seismological Centre (EMSC), which listed it as a magnitude 4.2 earthquake.

Based on the preliminary seismic data, the quake was probably felt by many people in the area of the epicenter. It should not have caused significant damage, other than objects falling from shelves, broken windows, etc.

In Bloomfield (pop. 1,900) located 6 miles from the epicenter, the quake should have been felt as light shaking.

Weak shaking might have been felt in Dexter (pop. 8,000) located 11 miles from the epicenter, Bernie (pop. 2,000) 20 miles away, Sikeston (pop. 16,400) 24 miles away, Poplar Bluff (pop. 17,300) 26 miles away, and Malden (pop. 4,100) 28 miles away.

Other towns or cities near the epicenter where the quake might have been felt as very weak shaking include Jackson (pop. 14,900) located 35 miles from the epicenter, and Cape Girardeau (pop. 39,500) 36 miles away.
