Clifford R. Talbert Jr., MD, FACC, Retires After 57 Years of Medicine

JULY 12TH 2022 BY DEE LOFLIN

Clifford R. Talbert Jr., MD, FACC, Retires After 57 Years of Medicine

Clifford R. Talbert Jr., MD, FACC, retired from Cape Cardiology Group, a Saint Francis Healthcare System Medical Partner, after 57 years of medicine on Thursday, June 30, 2022.

Talbert was the first to practice many life-saving techniques in southeast Missouri, including being one of the first to surgically implant a pacemaker into a patient. He also introduced cardiac catheterization and coronary angiography to the region. Additionally, Talbert was on the cutting edge of research for the balloon pump device, laser coronary angioplasty and coronary sinus retroperfusion.

Graduating from Washington University Medical School in 1959, Talbert completed his residency at Barnes-Jewish Hospital of St. Louis in 1962 and fellowship at University of Missouri Columbia School of Medicine in 1963. After his service to the military, he began his career as a Cardiologist in July 1965 at Saint Francis Medical Center.

Talbert said when he first started practicing, “cardiology was in its infancy.” There were almost no tools available to diagnose or treat the cardiac patient. “There were no blood thinners for heart disease,” he said. “There was no way to stop a heart attack. There was no cardiac monitoring available. The hospital had EKG, but no stress testing.” Talbert has seen healthcare evolve tremendously since he first started practicing.

“As new advances came along, I worked to get certain procedures or equipment in here,” he said.

In 1966, Saint Francis Medical Center established four beds for the Coronary Intensive Care Unit, the first such unit in southeast Missouri. That is when Saint Francis started monitoring patients with EKGs, and in the hospital, CPR training and treatment became available. Saint Francis nursing staff were instrumental in training of cardiac intensive care and cardiac catheterization laboratory work.

“There is more to be done,” Talbert said reflecting on his career. “The main objective is for the patient to be able to function. My advice to patients is not to give up just because they are older. They can survive and thrive at any age.”

Saint Francis Healthcare System is guided by our Mission to provide a ministry of healing, wellness, quality and love inspired by our faith in Jesus Christ. Founded by Franciscan Sisters in 1875, our priority remains the same: serve all who enter with dignity, compassion and joy. Serving nearly 713,000 people across Missouri, Illinois, Kentucky, Tennessee and Arkansas, our focus is on patients' outcomes, experience and value.

Anchored by Saint Francis Medical Center, a 306-bed tertiary hospital, and supported by nearly 3,000 employees and more than 250 providers in ten communities, the Healthcare System is a driving economic force in the region. Major services include the Cancer Institute, Emergency and Level III Trauma Center, Family BirthPlace and Level III Neonatal Intensive Care Unit, Heart Hospital, Neurosciences and Orthopedics.

Removing Property Dropped off After Hours at Stoddard County Gospel Mission Could Result in Criminal Charges

JULY 07TH 2022 BY DEE LOFLIN

Removing Property Dropped off After Hours at Stoddard County Gospel Mission Could Result in

The Dexter Police Department would like to make a public service announcement that any property taken from the Stoddard County Gospel Mission located on One Mile Road in Dexter, after hours or without the consent of the business will result in prosecution for stealing.

The general confusion is that when the property is dropped off at the business, it becomes “abandoned property”. However, this is not the case. Once the property is left voluntarily at the business, the Stoddard County Gospel Mission becomes the primary owner.

This charge is outlined in the municipal code manual under section 210.340 Stealing which states: A person commits the offense of stealing if he/she appropriates property or services of another with the purpose to deprive him/her thereof, either without his/her consent of by means of deceit or coercion.

It should be noted that the business is equipped with video surveillance which is monitored by staff 24 hours a day.

Groundbreaking Ceremony to be Held at Boon Park in Dexter

JUNE 28TH 2022 BY DEE LOFLIN

Groundbreaking Ceremony to be Held at Boon Park in Dexter

Dexter Friends of the Park committee is very excited to announce that the city of Dexter has been awarded a matching grant from the Land and Water Conservation Fund, provided by the National Park Service as well as the Missouri Department of Natural Resources. This grant along with your generous donations will allow construction to begin on the Boon Park Universal Playground!

On Thursday, June 30, 2022 they will hold a groundbreaking ceremony at Boon Park at NOON!

Everyone is invited to attend and celebrate this milestone. Local officials and community members will be on hand to answer any questions you may have regarding the project or grant.
